Teaching Tips: Wonderful Words Worksheets

Using this file

You are able to print and photocopy these pages for your non-commercial classroom and home use.

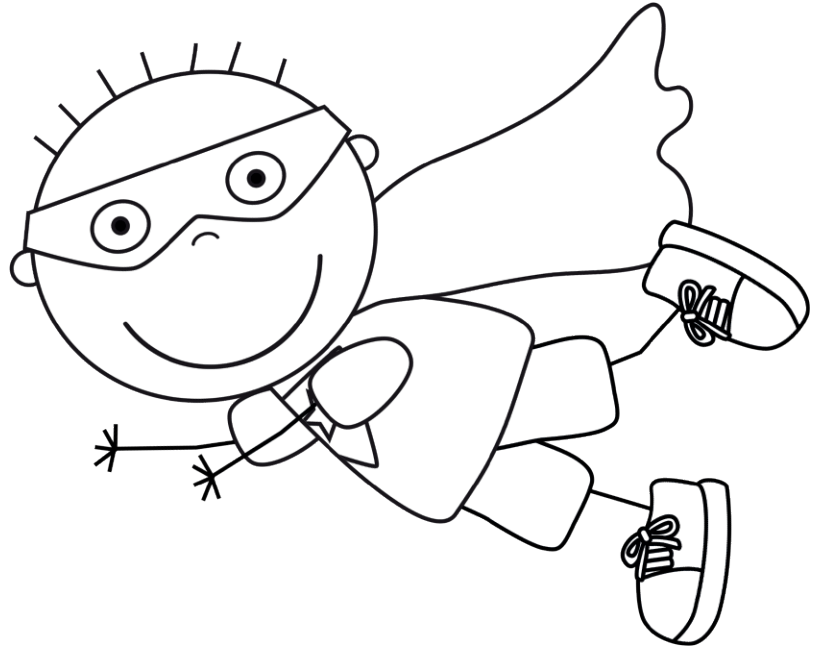

We have made this resource to help make your students' spelling practice more exciting! It is intended for teachers that would like their students to 'write out' their words each day.

Each worksheet can be used with any list of words, and prior to the lesson, you will need to write the list of words on a chart in your classroom before the students commence work.

Each worksheet can be used with lists UP TO 15 words. If your lists do not have at least 15 words, you could ask students to write some of their words twice to fill up the spaces.

The cover page provided on page 4 & 5 of this file could be used as a workbook cover, should you want to make booklets for your students to use.
